Site costs for the season

The table below lists each survey site with its visits, the volunteer hours it took, what it cost to keep running, and a short note on its state at the end of the season.

Site	Visits	Hours	Cost (EUR)	Notes
North quay	412	690	1,840	Ladder sound
East steps	158	240	2,310	Railing loose
Fish market	96	130	420	Board faded
Old slipway	71	115	380	Logbook wet
South mole	203	305	960	Light repaired
Total	**940**	**1,480**	**5,910**	**Within budget**

The east steps cost the most for the fewest visits because of the railing repairs, and should fall back into line once the council replaces the posts. Every other site came in under its share of the allowance.
